Home Learning

Please continue to share books and stories with your children.

How many things can you find that have the "t" sound in them?

Dear Parents

What a busy week we have had! We have continued to enjoy the story 'What The Ladybird Heard' and have been acting out the story using the props in our story sack (lots of animal and police car noises!). In phonics Bug Club we have been finding things in our classroom environment that have the "t" sound in them.

In Maths we have been using Numberblocks and we have been counting on our fingers to represent the numbers 1-5. We discovered you can do this in different ways by holding up different fingers.

In Maples we have had challenged ourselves to use scissors and cut along lines. We have been using our thumb and first finger to make the scissors work which can be a little tricky, but we have persevered and achieved some amazing cutting.

We hope you all have a wonderful sunny weekend together.

Miss Farress, Mrs Gray, Miss Joyce

This week our star of the week is Flora N for showing lots of kindness to her friends and for including them in her learning and play. Flora you have been just amazing at sharing your friendships and making sure you include everyone. You are kind and guide them, always making sure they have someone to play and learn with. Well done!
