HOME LEARNING

See what shapes you can find at home. Can you find circles, squares, triangles and rectangles? (clocks, windows, toys)

If your child is experiencing any symptoms of COVID-19, then please contact the office before bringing them into school. Thank you for your understanding in this matter.

Dear Parents,

We have been enjoying the lovely sunny weather this week and enjoyed lots of our learning outside.

We had super fun putting on our wellies, stepping in paint to make some amazing prints. We discovered that our wellies all had a different pattern on the bottom.

Also, we have been creative using our hands prints and fingerprints to make our Mums a special card for Mothering Sunday.

In maths we have been using 2D shapes to create patterns and pictures. We have looked at how many sides they have and been learning the names of the shapes.

Next week we will be sending books home weekly for you to read and enjoy with your child. They will choose, from a selection, the book they would like to read at home which will be accompanied with their own reading record book. It would be lovely to have some written comments on how they have enjoyed the book and story.

We hope you have a lovely weekend and enjoy this beautiful weather!

Miss Farress, Mrs Gray and Miss Joyce

Star Pupil of the Week

Star of the Week

This week Star of the week goes to Everly! Everly has really settled well into nursery and engages in her learning which includes all her new friends from Maples. Everly also likes to learn with her Willow friends too. She is very kind to her peers and adults and always has a smile on her face. Well done Everly !
